REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The closest prior art, Wu et al. (5,865,926), teach films that are embossed by grooved rolls to produce permeable films. However, they fail to teach that the rolling is done at temperatures in the range of 160 to 220 °F. Wu et al. only discuss treating the films at room temperature and the examiner agrees with the applicants' arguments that there is no motivation to emboss the films at the elevated temperatures claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Regarding the IDS dated May 23, 1997, paper 8, the examiner has reviewed the documents cited and enclosed a copy of the signed PTO-1449.

In the transmittal papers, the applicant declared the Drawings Informal. Formal drawings are now required; the informal drawings have black photocopy marks on them and are not suitable for publishing.

The examiner wishes to make 6,258,308, of record as being a child of the instant application. Attached is a PTO-892 listing the reference; however, no copy of the reference is provided.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Lawrence Tarazano whose telephone number is (703)-308-2379. The examiner can normally be reached on 8:30 to 6:00 (off every other Friday).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul J Thibodeau can be reached on (703)-309-2367. The fax phone numbers for the organization where this application or proceeding is assigned are (703)-872-9310 for regular communications and (703)-872-9311 for After Final communications.
